Time Capsule by Eidvile

I decided to create my own time capsule because we are living in a historical moment that I want to share with future generations 100 years from now. Firstly, I will put something that kids my age do for fun when stuck at home. I chose mobile phone because it is a device which young people these days is using the most. People of the future could find a lot of information about young people activities in 2020. They also could find how

A time capsule by Evaldas

If I would have an opportunity to create a time capsule, I would accept it straight away. Time capsules help future generations to acknowledge our present, but we can't put everything in a capsule. Items that I would put in it would show what was it for me to live in the past. First of all, I would show what was going in our world at this moment. Putting a newspaper about the on going quarantine is crucial, because it almost

Time capsule by Matas

Numéro un – A collection of books. Kids between the age of 16 and 18 often tend to enjoy laying under the apple tree and reading their favorite books from dusk until dawn. It happens so often that the older generations are considering them addicts. Teenagers spend most of their youth reading and not working. But someday this hobby will change and reading books will no longer be popular. They will become obsolete. That is why I am putting a collection of the most

Today I'm going to tell you a little story that happened to me when I was in school. I think in the seventh or eighth grade me and my two friends had a school science project. But we did something wrong because when we went to check the liquid and my friend puts his finger into the liquid and big explosion happened. We lost our consciousness. My and my friends woke up at night but not the same we had shrunk to 2 centimetres. My friend and I were to check and scared to death we didn't know

BOX by Darius

So this morning I woke up and found a box next to my bed. It was very big but a little bit wobbly, and had a note on its side. The note said: Travel box. Use at your own risk. Can be used no more than five times. Contents: a button, some nonsense and etc. At first I thought that it is a joke but just cause no one was around and I was curious I jumped in and took a picture of Fly Geyser. The colors there are so intense that you can't look at them more than for five
